Recipe Image Prompts · 100 Midjourney prompts in one consistent house style

How to use this document

Paste each prompt into Midjourney (web app or Discord, /imagine). When you get a 2x2 grid, upscale your favorite, download as PNG, and save it to the project's recipes/ folder using the filename listed under each entry.

Every prompt uses the same anchors so the rendered grid feels like one cookbook, not a Pinterest board: *overhead photograph · rustic light-wood table · soft natural daylight from upper left · editorial food photography · --ar 1:1 --style raw --v 6.1.*

If a generation comes back too stylized or off-vibe, re-roll with the same prompt before tweaking it. Midjourney's randomness varies more than its style discipline.
